

# SURENDRA BABU BOYILLA

## Full Stack Developer

Kuala Lumpur, Malaysia.  
[suren.boyilla@gmail.com](mailto:suren.boyilla@gmail.com)  
+601658-20616

### Career Overview:

- ✓ 9+ years of IT experience in the areas of Analysis, Design, Development, Documentation and Testing.
- ✓ Strong Knowledge on Application Development using Software Development Life Cycle using various methodologies like Waterfall, Agile/Scrum.
- ✓ Strong domain knowledge in **Telco, Banking and Insurance and Health Care** systems.
- ✓ Involved in develop **MICROSERVICES** with **Spring Boot, Spring Cloud**.
- ✓ Expertise in Client/Server and application development using **Java, J2ee** technologies.
- ✓ Experienced in Open-Source Java frameworks like **Struts, Spring MVC** and **Spring Boot, JSF**.
- ✓ Worked on the modernization of UI technologies like **Angular, React and Type Script**.
- ✓ Strong debugging and troubleshooting skills.
- ✓ Have good Client Communication skills and user interaction as well.
- ✓ Experience on Relational Database Systems like Maria DB, MySQL, DB2 and Oracle DB.
- ✓ Implement new business features based on requirement specification/technical design.
- ✓ Experienced in using build/deploy tools such as Jenkins, AWS, Docker for Continuous Integration & Deployment for Micro services and Monolithic applications.
- ✓ Strong knowledge of database systems, proficiency in SQL and Performance tuning.
- ✓ Experienced with development tools like Maven, Gradle, Jenkins, Sonar Qube, Sonar Lint etc.
- ✓ Extensive experience in Application server like Web sphere and web server like Tomcat.
- ✓ Demonstrated ability to adapt to new technologies and learn quickly.

### Education:

Bachelor of Engineering (ECE) 2008 – 2012 University of MLEC, India.

## Key Skills:

### Front end

➤ HTML CSS TailwindCSS JavaScript NodeJS **React** **Angular**

### Back end

➤ Java **Spring Boot** JPA Hibernate JSF Struts2 Express JS

### Databases

➤ **MySQL** OracleDB MongoDB

### Cloud

➤ **AWS** Firebase

### CI/CD & Others

➤ Git Github GitLab BitBucket Bamboo  
➤ Docker Sonarqube Maven Gradle Jenkins

## \*Employment history\*

### **Roche Malaysia**, Full Stack Developer

July 2021 – Present

- Involved in Development/Support web application using AEM, Java, J2EE and Spring Boot, React, Next JS, Angular, MySQL.
- Designing, developing applications and deploying on AWS cloud EC2.
- Implemented SSO with AWS Cognito and allow users to sign-in from Google and Facebook.
- Worked as a Full stack developer and integrating our front-end UI with the constructed API.
- Excellent communication and teamwork skills.
- Troubleshooting, debugging and upgrading software.
- Writing clean, functional code on the front and back-end.
- Assisting in enhancing existing software components and adding new features.

### **DHL**, Full Stack Developer

Jul 2022 - Jul 2023

- Involved in Development/Support web application using JavaScript, Angular, Bootstrap.
- Participating in the design and creation of scalable software.
- Testing and fixing bugs or other coding issues.
- Collaborate with the rest of the engineering team to design and launch new features.

### **PCCW Solutions**, Full Stack Developer

July 2020 – July 2021

- Involved in Development/Support web application using Java, J2EE and Spring Boot, Angular.
- Participating in the design and creation of scalable software.
- Writing clean, functional code on the front- and back-end.
- Testing and fixing bugs or other coding issues.
- Implemented Secure APIs using 3rd party OAuth2 provider in API deploying the code.
- Collaborate with the rest of the engineering team to design and launch new features.

#### **AXA Partners, Solutions Developer**

Mar 2019 – Jun 2020:

- Expertise in implementation of web applications using frameworks such as React, Spring Boot, JSF and ORM Technology like Hibernate.
- Strong experience in RDBMS using MySQL development.
- Extensive experience with Application/Web servers like WebSphere, Tomcat and deploy the apps in multiple environments like UAT, Production.
- Coordinating closely with productively with engineering and other teams.
- Work with development teams and product managers to ideate software solutions.
- Develop and manage well-functioning databases and applications.
- Test software to ensure responsiveness and efficiency.

#### **CIMB Bank, Solutions Analyst**

Apr 2018 – Mar 2019

- Implementing and enhancing new features to applications.
- Involved in Support/Development web application using Java, J2EE and Spring MVC.
- Developed single page UI screens using Angular.
- Involved in database design, proficiency in SQL and performance tuning.
- Provided multiple Security Patterns and layers for securing Rest end points.
- Designing and implementing Rest API which use the spring framework.
- Working in compliance with the full Software Development Life Cycle.

#### **MSIG Insurance, Software Engineer**

Mar 2016 – Apr 2018

- Implementing and enhancing new features to applications.
- Involved in Support/Development web application using Java, J2EE and Struts MVC.
- Involved in SQL and performance tuning.
- Working in compliance with the full Software Development Life Cycle.

#### **Allianz Insurance, Software Engineer**

July 2013 – Dec 2016

- Involved in Development of web application using Java, JSP, Zkoss, and Spring.
- Writing clean, functional code on the front-end & back end.

- Testing and fixing bugs or other coding issues.
- Involved in requirements gathering, Design, Analysis, Development and Testing.
- Involved in Unit Testing, UAT and Production support.
- Developed various PDF reports by using I Report Designer tool.
- Involved in developing client-side validations by using Java Script.
